WORK EXPERIENCE

Data & Software Engineer | CDN77 | Nov 2023 – Present

- Accelerated canary deployments multiple times by developing a dedicated service.
- Researched the application of machine learning in HTTP caching (bachelor's thesis, link).
- Increased development speed of the team by creating and maintaining shared templates and libraries.
- Increased code quality in the team by enforcing a style guide and keeping it up to date with the latest Go standards and best practices.
- Currently developing various Go microservices communicating with RabbitMQ, ClickHouse, Kafka, Elasticsearch, Redis, CockroachDB, MySQL.
- Creating complex integration tests with Testcontainers and ToxiProxy.

PERSONAL ACHIEVEMENTS

Winning team | EuroTeQ Collider CTU | 2025

- Developed an ML electricity load prediction system together with the team.
- Presented our solution at CTU in Prague and TU/e in Eindhoven.

4th place out of 19 teams | Second Foundation Hackathon | 2025

- Played a key role in the team – selected a tech stack (Go), taught the team to use it, wrote and reviewed most of the code.

Top 10% best students | Deep Learning course at MFF CUNI | 2026

- Developed top-scoring competition solutions.

PROJECTS

Sudoku Solver | C | github.com/fedorkanin/hexadoku

- Developed a 16x16 hexadecimal sudoku solver ranked fastest at my university.

CLI Table Editor | C++ | github.com/fedorkanin/tabedit

- Created a CLI table editor that features arithmetic operations, dynamic formula evaluation, and import and export to JSON.
- Used modern solutions like static polymorphism via C++17 features.

ABOUT

I am proactive, thorough, reliable, and supportive.
I am an all-rounder. I am genuinely interested in the world around me, so besides coding and ML, I have many other interests: language learning and linguistics, classic menswear, tea, playing guitar and drums, photography and videography (AVC CTU member), presenting in front of people and organizing things.

SKILLS

Go, Python, C/C++
SQL
Kafka
ClickHouse
Ansible
Prometheus
VictoriaLogs
Docker
Linux
GitLab CI
Git

LANGUAGES

English – C1
(Cambridge certificate)
Czech – C1
Russian – Native
German – A2
Spanish – A2

EDUCATION

prg.ai Minor
Inter-university program for selected students
Apr 2026 - Present

Master of Science
Artificial Intelligence
Charles University
Prague
Sep 2025 – Present

Bachelor of Science
Artificial Intelligence
Czech Technical University
Prague
Sep 2022 – Jun 2025

Secondary
Lyceum,
IT-specialized class
Moscow
2017 – 2021
